Steps to test Nice Pull Request Challenge
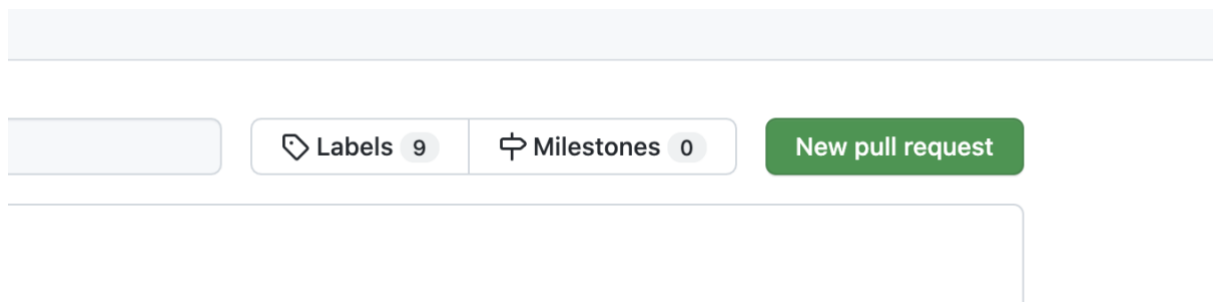

1. Login into your GitHub account. https://github.com/
2. Open repo : https://github.com/nik-git/king_impolite_pr_check
3. Fork above repo by clicking on Fork button.

4. Open forked repo in your git hub account.

5. Click on Pull requests.
6. Click on New Pull Request.

7. Select repo and branches from drop down lists.

8. Click on Create pull request button.

9. Add PR title and PR description without Please, appreciate and would be great phrases.
10. Click on Create pull request button.
11. You PR will be closed.

12. If you add Please, appreciate and would be great phrases in PR description, PR will not be deleted.

Note : If you get Access denied or Token expired or Bad request error, then I need to regenerate the token from GitHub UI.
